4. Illuminating paraffin be increased by 367 thebe per litre.

The above changes effected from **00:01 Tuesday 28th June 2022.**

The previous retail pump price adjustment was on 13th May 2022. The increase of pump prices continues to be influenced by increase of international oil prices. Since February 2022, the main driver of international oil prices has been the Russia-Ukraine conflict that threatens global crude oil supplies.

The increase in international oil prices has a direct impact on local fuel prices and aviation fuel prices since Botswana is a net importer of petroleum products.
